CLC_D21-Comments-on-AOR-2015-09_10.27.15.pdf

Dear FEC -

We object to the redaction of CLC / D21's comments on AO 2015-09. The redactions at <http://saos.fec.gov/aodocs/1510281.pdf> - removing references to enforcement matters that have already been publicly disclosed by CLC/D21 - are contrary to the Administrative Procedure Act and the Government in the Sunshine Act.

AORs are public administrative proceedings held in open sessions. All comments submitted are public record in their entirety. The Commission has no authority to redact public comments in a public proceeding, nor to require any submitter to redact their comments.

Per 5 USC 552b(b), "every portion of every meeting of an agency shall be open to public observation." CLC/D21's comments are a portion of the agency's meeting.

Accordingly, we ask that this comment - together with the attachment, in original electronic format - be filed on the public record, and that CLC/D21's original comments be posted in unredacted form.

We strongly object to any redaction of this comment or its attachment.

Sincerely,

Sai

President, Make Your Laws PAC/C4/C3
